

FREE BET BLACKJACK

It doesn't matter how much you wager – the dealer will match your exact bet and pay for you to double and split.

If you lose then you only lose 1 bet. If you win then you are paid the full amount.

The dealer will even bet for you more than once during a Hand, if needed. For example:

Player is dealt  and the dealer has a  showing.

Dealer will pay for the player to split

If the player receives another 3 then the dealer will also pay for that split. If the player receives, say, a 7 on one of the 3's then the dealer will also pay for that double.

So, in the above example, the player is risking just one bet as the dealer has placed 3 further wagers for the player. However, if the player wins all of the bets then they receive the full payment of 4 bets!!!

Furthermore, the player can elect to double on any number of cards AND the dealer will also pay for the player to do that!

- 'Blackjacks' pay 3/2
- All splitting and doubling after splitting allowed
- 'Free Bet' doubling on hard totals of 9, 10 & 11 with any number of cards
- 'Free Bet' splitting on all pairs except 4's and 10-value cards
- 'Free Bet' re-splitting and 'Free Bet' doubling after splitting allowed
- Dealer will push all remaining hands on a total of 22
